WHY THIS DEAL CLOSED

Acme Robotics came in warm from a Q1 CTV webinar with a clear mandate to add a measurable, top-of-funnel channel ahead of a spring product launch. SDR Sam Patel booked the discovery call; AE Jordan Rivera ran a tight three-call cycle that aligned on a **4–6× ROAS target** and an April go-live. Executive sponsorship from the VP of Marketing and a concrete launch deadline turned an initial $90K scope into a **$120K** commitment.

DEAL CONTEXT

Enterprise / Direct, new business. Product: Streaming TV Performance Plan. A multi-threaded deal — SDR-sourced, AE-led, with the VP of Marketing (Casey Nguyen) as economic buyer and a marketing analyst validating measurement. The scope grew during proposal after a full-funnel plan (prospecting + retargeting) replaced the initial prospecting-only quote.

CALL DEEP DIVES

Call 1: Discovery

Discovery

Feb 19, 2026 · 32 min · Jordan Rivera (AE), Sam Patel (SDR), Casey Nguyen (VP Marketing)

Acme is launching a new product line in spring and wants a measurable top-of-funnel channel beyond search and social. Discussed a 4–6× ROAS goal, an April go-live, and creative readiness.

WHAT THE PROSPECT TOLD US

- Spring product launch — needs incremental reach fast
- Search & social are saturating; wants a new channel

OPEN QUESTIONS

⚠ Creative specs / asset readiness to confirm

BUYING SIGNALS

✓ Committed to an April go-live date

✓ Outcome-focused (ROAS), not price-shopping

Call 2: Proposal Review

Proposal

Mar 12, 2026 · 28 min · Jordan Rivera (AE), Casey Nguyen (VP Marketing), Priya Shah (Analyst)

Reviewed the full-funnel plan and measurement approach. VP confirmed the $120K budget and April launch; analyst satisfied with the incrementality study design.

WHAT WORKED

✓ Incrementality study answered the analyst's rigor bar

✓ Full-funnel plan expanded scope to $120K

PRICING / BUDGET

- $120K committed; annual budget framing

✓ Verbal commit on the call

KEY MOMENTS

CALLS & COMMUNICATION

PRICING & BUDGET

- 3 calls over ~3 weeks; SDR-sourced
- Multi-threaded: VP + analyst engaged
- Fast, decisive cadence

- Initial $90K prospecting-only quote
- Grew to $120K full-funnel
- Annual budget confirmed by VP

BUYING SIGNALS

- Firm April launch date
- Outcome-focused (4–6× ROAS)
- Analyst validated measurement

DECISIONS & EXPANSION

- Chose full-funnel over prospecting-only
- Incrementality study scoped
- Kickoff booked at close

WHAT WORKED

WARM, TARGETED ORIGIN

A relevant webinar gave the SDR a high-intent VP contact — not a cold start.

SPEED TO VALUE

Discovery-to-close in ~3 weeks, tied to a concrete launch date.

OUTCOME SELLING

Framed on ROAS and seasonality, not features — matched the buyer's mindset.

MULTI-THREADING

VP economic buyer plus an analyst de-risked the measurement objection.

SCOPE EXPANSION

A full-funnel plan lifted the deal 33% over the initial quote.

CLEAN HANDOFF

Kickoff scheduled at signature keeps launch momentum.

PROCESS GAPS

GAP 1: CREATIVE READINESS

Creative specs were an open item on the discovery call with no linked task tracking asset readiness before launch.

GAP 2: LEAD-SOURCE GRANULARITY

Lead Source is 'Webinar' but doesn't capture which webinar or campaign — attribution for event-sourced pipeline is coarse.

Recommendation: Auto-create a creative-assets task at Closed Won with an owner and a due date tied to the go-live.

Recommendation: Add a campaign/source detail field so specific events are measurable.

GAP 3: AMOUNT-CHANGE NOTE

The amount rose $90K → $120K with no reason logged; the scope change lives only in the rep's memory.

Recommendation: Require a short reason on material amount changes for clean win analysis.

GAP 4: NEXT-STEP HYGIENE

Next Step was not consistently updated between the proposal and close stages.

Recommendation: Flag active opps whose Next Step is unchanged for 7+ days.

GAP 5: STAKEHOLDER MAPPING

The analyst (Priya Shah) appeared only at proposal; no contact role was recorded for her earlier.

Recommendation: Capture contact roles at discovery so the buying group is visible sooner.

GAP 6: MEASUREMENT FOLLOW-THROUGH

The incrementality study was scoped but has no owner/date for the post-launch read-out.

Recommendation: Book the study read-out at close to institutionalize the land → prove → expand loop.
